## TARGET AUDIENCE

This program will be of particular interest to Neurosurgeons, Neurologists and Directors, Physicians, Neuroscientists, Researchers & Professors, Healthcare professionals, Industrial Experts, Neurosurgeons & Psychiatrist, Nutritional Scientists, Lecturers and Students from Academia in the study of Dementia, Students from Academia in the research of Neurology Neuro Physiotherapists

## OBJECTIVES

Neuroscience 2019 Conferences urge to build a good platform for Scientists and Researchers to propagate their research to international viewers and also to offer a free access to the quality information to all the readers. This educational activity was developed in response to needs of healthcare providers in the fields of neurology, brain disorders, Psychology, family medicine, nursing, and social work from previous course evaluations.

At the conclusion of this activity, the **Neuroscience & Brain Disorders** team will be able to:

1. Make students involved in designing or researching in **Neuroscience** areas in a detailed manner under the guidance and supervision of various academicians
2. Evaluate information as presented to incorporate recommended best practice.

## INVITATION

On behalf of the **Endling conferences Private Limited** we welcome you all to the **Global Summit on Neuroscience and Brain Disorders** to be held during **01-Apr-2019 to 03-Apr-2019 Kuala Lumpur, Malaysia**. The focus of the event will be “**Evolutionary Advancements on Neuroscience and Brain Disorders**” and how scientific researcher can play a greater role in nervous system at the different scales and the techniques used by neuroscientists have expanded enormously, from molecular and cellular studies of individual neurons to imaging of sensory and motor tasks in the brain.

The Scientific Sessions offers researchers and health care professionals the unique opportunity to share ideas and learn about the significant advances in the areas of Neuroscience and Brain Disorders to attendees. The program is categorized into 3 Main theme areas, allowing you to focus on your specialty or expand your knowledge in other areas Psychology Sessions, Neurology Sessions and Neuroscience & brain disorders. I hope this conference will serve as a platform for exchange of ideas and innovations in nervous and brain system.

This Conference will provide an opportunity for exchange of ideas and trustworthy views by chief scientists as well as business leaders and investors in this exciting field. Marvelous keynote speakers and well known chief scientists and experts from around the globe will be anticipated to share their knowledge.

To have an enhanced ambience, the conferences are associated with panel discussions for good networking, workshops & symposia.

## Venue:

Malaysia has had one of the best economic records in Asia, with its GDP growing at an average of 6.5% per annum for almost 50 years. The economy has traditionally been fuelled by its natural resources, but is expanding in the sectors of science, tourism, commerce and medical tourism. It is also one of the few developing countries to heavily subsidise education and healthcare. Malaysia has a newly industrialised market economy, ranked 4th largest in Southeast Asia and 38th largest in the world. One of Malaysia's key attractions is its extreme contrasts which further add to this theme of 'diversity'. Towering skyscrapers look down upon wooden houses built on stilts while five-star hotels sit just metres away from ancient reefs. Rugged mountains reach dramatically for the sky while their rainforest-clad slopes sweep down to floodplains teeming with forest life. Cool highland hideaways roll down to warm, sandy beaches and rich, humid mangroves. Malaysia is hot all-year round.

### WHY TO ATTEND

Neuroscience 2019 will ensure to provide a scientific platform for all the attendees to share novel ideas, establish research and networking. It encourages young researchers and students to participate and explore the current trends and research interrelated to neuroscience & brain disorders. Furthermore offers globally renowned keynote sessions, speaker sessions, Workshops, exhibitors, interactive sessions and poster presentations
